PERFORMANCES

Push bottom. Armrest adaptable without using tools for a better comfort everytime.

Elevating legrest.

Ideal desing and functionality, using the calfrest release mechanism for transferring out of the chair and the resting of the calf muscle.

Axel plate

You can achieve different seat heights by changing the position of the rear wheel in the axle plate. A reduced seat height of 42 cm. is available as an option.

Adjustable in depth frame

To fit the anthropometric measures of the user. The frame is made without welds by using die cast aluminium parts.

Accesories
